# McGraw-Hill Education Science Workbook For The GED Test

## Synopsis

All new for the new GED test! Drills and exercises to help you ace the Science section. The GED test includes a Science section covering life science, physical science, and earth and space science. This workbook provides the focused practice you need to earn a passing score on this section. McGraw-Hill Education Science Workbook for the GED Test provides intensive practice in all of the Next Generation Science Standards topic areas covered by the new test. Drills and exercises reinforce learning and assess your progress.

## Customer Reviews

The book is great if you have another book to study. It offers no insight on the questions. It's is only a workbook with questions, not a study book.

This was purchased as a gift, and the person who received it said that it was helpful and easy to use.

Great study guide for my daughter who just doesn't do well in a structured school setting

Great help ,pleased with my purchase .
