This book changed my life and I have recommended it over and over again. I met Dr. Crook and was able to tell him what his book had done for me. My son was a mess and today he has just finished his first year of college in Boston with A's and B's. The nutritional guidance is invaluable. Thank you!!

This is a must read for any parent of a child with any kind of allergies, eczema, learning disabilities or hyperactive behavior. Large print with many illustrations per page. Very easy to read and understand. I read the entire book in one sitting.

Great book in easy to use with your child. I great starter book for the very confusing word of ADHD information.

This book has wonderful illustrations. I thought the ideas in this book were great. I have use several with my daughter and feel she has responded to them.
