Having read the original English version, I figured I wouldn't get anything else by reading the translation. Surprisingly, this book is more than just mere translation. Many things have been updated, such as more modern equipment. Another great bonus is that all the calculations are done in metric. Saves you a lot of time. It's a must have!

Muy buena traduccion del original al ingles. Me gustaria encontrarme otros manuales tan valiosos como este traducidos al espaÃ ol. Gracias por el esfuerzo de traduccion (valio la pena)

it's very clear and usefull for a newbbie or for some skilled wuy. a perfect gifth for a guns, hut outdoorsport or law enforcement. good price for an excelent book and very good service and shipping

Worth the money. I've read other sniper books. And studied most of the history about the upcoming sniper programs and this book provides a even deeper look into what becoming a sniper needs.

Un libro exhaustivo, serio y muy profesional. Yo lo compre como airsofter-aficionado pero el nivel es altísimo. Incluye tácticas, técnica de armas, revisión de equipo y material...

An extraordinary work with technical details clearly explained. It is a book that I consult frequently.

The book is good, brings great artwork and many useful details have interesting, yet I have not read everything but so far I liked. thx
