What's Up With Lyndon?: Medikidz Explain Osteosarcoma (Medikidz Explain [Cancer XYZ])

Synopsis

Childhood osteosarcoma, a cancer of the bone, is explained in graphic novel format in this informative story that makes the science behind cancer accessible to young readers. The Medikidz are a group of larger-than-life superheroes who live in Mediland, a living, moving virtual world within the human body. Each character is an expert on one component of human anatomy and the role it plays in fighting the disease: Axon is a brain specialist, Pump has the lowdown on the heart and blood vessels, and Skinderella knows all about the skin and bones. Appropriate humor and adventure offset facts about osteosarcoma, its treatment, and recovery, so young readers can understand Lyndonâ™s illness and become aware of the support and loving care that he needs.
